Alphabetisches Namenverzeichnis.

Vor der Benutzung des Namenverzeichnisses zu beachten!

Zur schnellen Auffindung eines Namens sind die auf den Karten durch Längen- und Breitengrade gebildeten Vierecke mit Buchstaben und Zahlen bezeichnet, die in den Rändern jeder Karte braun eingedruckt sind. Die Rückseitenkarten sind im Namenverzeichnis durch schrägliegende Schrift und Einklammerung der Seitennummer gekennzeichnet z. B. *(R. 49)*. Auf ihnen sind im allgemeinen die Vierecke nicht ausgezogen, aber wegen ihrer Kleinheit leicht zu überblicken. Die im Namenverzeichnis hinter den Namen stehenden Zahlen und Buchstaben geben die Kartenseiten an und das Viereck, das den betreffenden Namen enthält. Steht hinter der Seitenzahl im Namenverzeichnis Nbk. I, II usw., so bedeutet das: Nebenkarte I, II usf.; steht Nbk. l. o. oder Nbk. r. u., so bedeutet das: Nebenkarte links oben, oder Nebenkarte rechts unten.

Die Namen großer Gebirge, Meere und Ströme sind den Übersichtskarten entnommen. Jeder Name eines Ortes, Flusses usw. ist in das Verzeichnis nur einmal aufgenommen, und zwar in der Regel aus derjenigen Karte, wo das Land, dem das betreffende Objekt angehört, als Hauptdarstellung im größten Maßstabe gezeichnet ist. So findet man z. B. für den Namen Karlsbad (Böhmen) die Angabe 75/76 B/C 3, d. h. es wird auf die Karte von Böhmen usw. verwiesen, während doch Karlsbad auch auf der Karte von Sachsen, 53/54 C 4, in doppelt so großem Maßstabe steht, hier aber im „Nebenland". Es ist daher vielfach zu empfehlen, die Karten der Nachbargebiete darauf anzusehen, ob sie das in Frage kommende Gebiet als „Nebenland" in größerem Maßstabe enthalten (vgl. auch die häufig unter den Karten und im Inhaltsverzeichnis bei den betr. Karten stehenden Hinweise auf solche Nachbargebiete!).

In den Karten abgekürzte Namen sind im Verzeichnis voll ausgeschrieben. Bei gleichlautenden Namen ist ein unterscheidender Zusatz in Klammern beigefügt, bei Flußnamen aber stets Fl. = Fluß, sobald dies nicht ohne weiteres aus dem Namen selbst ersichtlich ist. Bei den unterscheidenden Zusätzen sind folgende Abkürzungen angewandt: a. = am; a. d. = an der; b. = bei oder beim; i. = in oder im; v. = von oder vom; z. = zur oder zum; Ahpt. = Amtshauptmannschaft; Bg., Bge. = Berg, Berge; Bz. A. = Bezirksamt; Bzhpt. = Bezirkshauptmannschaft (Bezirksverwaltung); Dep. = Departement; Distr. = Distrikt; Geb. = Gebirge; Gbt. = Gebiet; Gouv. = Gouvernement; Gsch. = Grafschaft; Gv. = Gouvernement; Ins. = Insel; Kant. = Kanton; Kom. = Komitat; Kr. = Kreis; Krhpt. = Kreishauptmannschaft; Lsch. = Landschaft; O. A. = Oberamt; Pr., Prov. = Provinz; Schl. = Schloß.

Im allgemeinen ist im Atlas in den Übersichtskarten die Schreibung nach den im Deutschen gebräuchlichen Namenformen durchgeführt. In den Spezialkarten dagegen wurde fast durchweg die in dem betreffenden Lande als amtlich geltende Schreibweise der Namen an erster Stelle gegeben. In den neugebildeten mitteleuropäischen Staaten sind die Ortsnamen vielfach verändert worden, ferner ist die Schreibung der Namen in den skandinavischen Ländern stark verändert. Diese Namen sind aus dem Nachtrage zu ersehen. In Ländern, wo das lateinische Alphabet gilt, wurde gewöhnlich die landesübliche Schreibart beibehalten (z. B. in Italien, England, Böhmen, Ungarn, Rumänien, Indien usw.). In den Ländern, in denen nicht das lateinische Alphabet gebraucht wird, wurde die Schreibung der deutschen Aussprache gemäß gegeben; auf Besonderheiten der Umschreibung oder der Aussprache ist in den jeweiligen Kartenerklärungen hingewiesen. Beim Aufsuchen vieler durch die Tagespresse, in der Literatur oder sonstwie gebrachten geographischen Namen ist es deshalb notwendig, zu prüfen, ob sie nicht in fremder Schreibweise gegeben sind, die wesentlich von der deutschen abweicht und dadurch ein Auffinden im Namenverzeichnis unmöglich macht. Der Engländer z. B. schreibt: Chekiang, Kalat, Khiva, Whang-ho, Yangtse-kiang usf., wo der Deutsche Tschekiang, Kelat, Chiwa, Hwang-ho, Hoang-ho, Jangtse-kiang usf. schreibt.
